How Do I Enroll in 1290R?

- Enroll in 1290R just as you would with any other course in [Student Center](). Search for your 1290R course by adding:
  - Subject: leave blank
  - Course number: enter 1290R
  - Course Career: select Graduate
- It is up to you if you wish to enroll in either the department 1290R or UNVS 1290R. They serve the same purpose in maintaining continuous enrollment.

1290R Registration Requirement: International Students

- Federal regulations require international students in F-1 visa status to be fully enrolled in classes within the first 30 days of the start of the semester.

- Because 1290R enrollment assignments are not provided until the day following the add deadline, it is imperative that international students check for their appointment that day in their MySJSU Student Center and promptly add the course. Eligible students who do not have an appointment should immediately contact Jeff Honda (jeffrey.honda@sjsu.edu) to assure that an appointment is made in a timely fashion.

- International students who fail to add 1290R within the first 30 days of the start of the semester will be out of compliance. Student F-1 status will be terminated which will result in the student's immediate U.S. departure.
