

# Are you ready for the California Cyber Quests?

REGISTER FOR CYBER QUESTS AT  
California Cyber Quests  
State University.

Cyber Quests is a weeklong network security challenge running from April 16–30. It tests your skills in a virtual network environment. You will receive real-time findings. To register, visit [www.uscc.cyberquests.org](http://www.uscc.cyberquests.org).

Participants who are currently students at California Cyber Quests State University, in partnership with the California State University system, will host the challenge. Participants from other universities may be eligible for admission.

At the weeklong challenge, you will simulate network security incidents, such as intrusions through a virtual network. This is an opportunity to test your skills and gain experience in a real-world environment.

For more information, visit [www.sjsu.edu](http://www.sjsu.edu) or go to [www.uscc.cyberquests.org](http://www.uscc.cyberquests.org).
