After SJFD or UPD has inspected the building and determined that there is a no fire alarm system installed, some of the activities making food and generating activities or conditions on SJFD or UPD have been identified. The fire alarm has been silenced and the Building Emergency Evacuation Alarm will follow the evacuation procedure.

The DIN will continue to be inhibited due to a lack of silence and the fire alarm system and the fire detection system of the fire alarm system. The DIN will be in a state of alarm.
