Alumni Spotlight Ms. Rebecca Maddox

Rebecca (Mantecon) Maddox received a B.S. in Industrial & Systems Engineering from San José State

After leaving SJSU, Rebecca worked for Juniper Networks as a Quality Processes Engineer focusing on data analysis and metrics reporting for the Manufacturing Operations team until mid-2018, when she joined

Rebecca Maddoxcont.

in the program virtually since Jan. 2021. She is looking forward to new material for the year and graduathe end of 2022.

Throughout her career, Rebecca has realized a few recurring themes (she likespfartdamgs!). Process flow and value stream mapping to enable process improvement and change management are her passions, as training and coaching other team members. Another point of emphasis is finding the balance betwee harder, technical skis and the soft skills of communication, uncovering motivating factors, and utilizing u % š Z Ç š } š Œ µ o Ç µ v Œ • š v š Z • š I Z } o Œ • [v • X µ Œ Œ v š o] v Œ • À] •]] o] š Ç } (Z Œ v P] v Œ] vnÆs fĕr internaš recpgnitionus‰lo ale Zdditional
