than 11. Critiques are required to be uploaded online through Canvas. I will evaluate your critiques for
critical content. Works that merely summarize the readings will receive poor marks. When writing your
critique, keep in mind the following points: what are the important claims made by the author? What has
the author really shown? What are the strength and weakness of the arguments? What are the
possibilities for related research? What interesting questions (at least three) we can ask to the author?
will not accept any critiques after the deadline
