San José State University Department of Mechanical Engineering ME 111, Fluid Mechanics, Alaskan pipeline. It is concerned with the forces on the 726.4 ft-

labs, clinical practica. Other course structures will have equivalent workload expectations as described in the syllabus.

Required Texts/Readings

Textbook

Fluid Mechanics, by Cengel and Ceimbala, McGraw Hill Education, Fourth Edition, 2018 (ISBN: 978-1-259-69653-)

Classroom Protocol

Students are expected to complete the assigned reading for the day before class. We will be covering a significant amount of material, and if you don't do the readings, it may be more difficult to completely understand the lectures. Not all of the reading material will be covered in class. Questions during lecture are encouraged. It is your responsibility to

submitted, or plan to submit for another class, please note that SJSU's Academic Policy S07-2 requires approval of instructors.

Campus Policy in Compliance with the American Disabilities Act

If you need course adaptations or accommodations because of a disability, or if you need to make special arrangements in case the building must be evacuated, please make an appointment with me as soon as possible, or see me during office hours. Presidential Directive 97-03 requires that students with disabilities requesting accommodations must register with the <u>Disability Resource Center</u> (DRC) at http://www.drc.sjsu.edu/ to
