This MSME Program Educational Objectives (PEOs) that this course most directly addresses are:

PEO #2: Professional and lifelong learning skills to be able to apply and extend theory to solve practical contemporary engineering problems.

PEO #4: Strong verbal and written

Practical Engineering Skills: Each student is required to identify and begin applying at least two distinct practical engineering skills that are likely to contribute meaningfully to the project that is proposed. While some of these skills may have been learned in prior coursework or industry experience, others might require substantial independent learning. In all cases the intent is **not**
