

## **Legislative History:**

At its meeting of May 12, 2014, the Academic Senate approved the following policy recommendation presented by Senator Gleixner for the Curriculum and Research Committee. Title 5 (EO 1071) and procedural instructions from the Chancellor's Office give the campuses authority to develop their own curricular requirements for concentrations and processes for reviewing them. SJSU had no such policy in place so this policy defines the new curricula requirements and review processes for concentrations with the consideration that concentrations should include content that is part of the core of the major as well as content that distinguishes it from the major.

### **Effective Fall 2014**

**Action by University President:**

**Approved by President**
