SAN JOSÉ STATE UNIVERSITY ONE WASHINGTON SQUARE SAN JOSÉ, CA 95192

S22-1, University Policy, Establishment, Reporting, Continuation and Termination of Campus Centers and Institutes (CCI), Formerly Known as Organized Research and Training Units

Rescinds University Policy S05

ACTION BY THE UNIVERSITY PRESIDENT:

Approved and signed by Interim President Steve Perez, San José State University on February 14, 2022.

Whereas: CSU policy AA 2014-18, Centers and Institutes: Guidelines,

Whereas: annual reports to the University are required and an annual list of active CCIs shall be submitted to the Chancellor's office via the Assistant Vice Chancellor for Research Initiatives and Partnerships to update the system-wide website upon request, and Whereas: the President is "delegated the responsibility for the approval and oversight of CCIs" and whose "authority may be delegated," and Whereas: the University has created the Division of Research and Innovation; be it therefore Resolved: That S05-13 be rescinded and the following new policy be adopted. Rationale: Our current policy is not in alignment with the CSU Chancellor's Office policy AA 2014-18 to direct the oversight of Campus Centers and Institutes (CCIs) at the University level. Because the changes to the policy were so significant, C&R elected to rescind the old policy and replace it with the new policy rather than

showing line by line edits.

Approved:	01/31/2022
Vote:	11-0-0
Present: Absent:	Richard Mocarski (seat A), Thalia Anagnos (seat B), Marc d'Alarcao (seat C), Gigi Smith (seat D), Faranak Memarzade (seat E), Cara Maffini (seat F), Katy Kao (seat G), Wei-Chien Lee (seat H), Stefan Frazier (seat I), Brandon White (seat J, chair), Marie Haverfield (seat K), Chloe Cramer (seat L) None
Financial Impact:	To be determined

POLICIES AND PROCEDURES ESTABLISHMENT, REPORTING, CONTINUATION AND TERMINATION OF CAMPUS CENTERS AND INSTITUTES (CCIs), FORMERLY KNOWN AS ORGANIZED RESEARCH AND TRAINING UNITS

Research, scholarship, creative activity, education, and public service are recognized as vital components of the academic mission of San José State University. These can involve the lone scholar, the collaborative effort of a team, or a large but coordinated group. Because of the diverse ways in which these activities may be carried on, centers and institutes established within the university are recognized as efficient means to fulfill these functD[dc)-6 (ogni(m)10.4 (a)- 4 (unc)-6 (t)-11(.4 (w)-17.7 (f)-11a.6 (c)-6 (i)-0.7 (f)

- 2. In carrying out their programs, CCIs may seek and are encouraged to seek financial grants and provide funds and facilities for coordinated programs. Funds may be from contracts, grants, or gifts; but the value of the program to the campus--not the immediate availability of funds--shall be the criterion for establishing or continuing CCIs.
- 3. CCIs may be organized and established as either an institute or a center according to these definitions:
 - a. <u>Institute</u>. An institute is an agency established primarily for the coordination and promotion, on a continuing basis, of ascertained faculty. CCI Activity needs and interests organized around a broad interdisciplinary subject area. The breadth of the subject will be reflected in CCI Activity projects and programs which cut across college or campus boundaries. An institute, however, may also be proposed when needed by a single department to coordinate broad and varied CCI Activity programs across an interdisciplinary set of questions that encompass partnerships beyond that one department.
 - b. <u>Center</u>. A center is an agency established to promote focused CCI Activity interests of the faculty in a designated major area and may be within an institute, college or department. The depth of the subject will be reflected in CCI Activity projects and programs which address a focused set of questions that serve a designated area.
 - c. Public service activities and programs stemming from RSCA conducted within an institute or center, or from the professional interests of participating faculty may also be undertaken by CCIs.
 - d. Those entities that existed under S05-13 as an ORU or ORTU prior to the passage of this policy and are not named as an institute or center are allowed to maintain their title to enable ongoing name recognition by campus or external constituents, or to maintain alignment with their original or required mission or charter statements. Nevertheless, those entities are encouraged to update their mission, charter, and title to align with this policy.
 - e. Those entities that meet the definition of a CCI that have not previously obtained approval as an ORU or ORTU under the old University Policy S05-13, will be required to be subject to this policy.
 - f. This policy does not apply to state or federal centers governed by their authority or campus central administrative or service units.
- 4. The creation of CCIs should be proposed with clear and strong evidence that long range needs and interests of the faculty and the university will be served thereby.

- a. Functions of CCIs may include:
 - i. Providing opportunities for professional development of faculty and staff through teaching, research, scholarly and creative activities, and public service.
 - ii. Fostering and facilitating interdisciplinary efforts among disciplines, departments and across colleges.
 - iii. Providing a clearinghouse for information of interest to professionals, and conducting workshops and conferences for continuing education.
 - iv. Enhancing the curriculum by facilitating and supplementing the academic experience of students.
 - v. Other functions as stated in the organizational document, and approved following the process described below.
- b. Faculty and administrators may propose CCIs, but all proposals shall be reviewed and recommended by the administrative dean (if more than one college is involved, one administrative dean shall be named) to the Associate Vice President for Research (AVPR).
- c. Proposals shall include the CCI's financial plan including funding sources and any specific financial support. It is possible that it is in the best interests of an academic unit to provide support for a CCI based on the services it offers. In such a case, the administrative dean shall include a memo documenting the need and plan for such startup support.
- d. Proposals shall include a description of the organizational structures, community partnerships, and all related organizational documents. The CCI shall be headed by a director appointed by the administrative dean. Proposals may specify a faculty nomination process to recommend a director for consideration and appointment by the administrative dean. The management and review of a director resides with the administrative dean who may receive feedback from an Advisory Board (internal and/or external).
- e. The proposal shall include the names of those initiating the proposal, name of the CCI, a statement of the purpose of the CCI, and a table of organization. The AVPR will provide a checklist of necessary items to be included in the proposal.
- f. The AVPR shall review the proposal and consult with the chair(s) of the department(s) most directly affected by the proposal and with the administrative dean, as needed, regarding the merits of the proposal. The AVPR may request revisions to establish conformity of the proposed CCI with the standards established by this policy.
- g. When convinced that these standards have been met, the AVPR shall then submit the proposal to the Curriculum & Research Committee of the Academic Senate. The Curriculum & Research Committee shall consider the

proposal and make recommendations to the Vice President for Research and Innovation (VPRI). The VPRI, in consultation with the Provost, shall review the proposal with accompanying recommendations. CCI proposals accepted by the VPRI are presented to the President for final decision. The President's decision shall be in writing to the administrative dean, with a copy to the VPRI, Provost, AVPR, and the Curriculum and Research Committee and shall include the original copy of the proposal with approval signature (or not).

- h. CCI proposals not accepted by the VPRI will be returned to the administrative dean with written feedback with a copy to the Curriculum and Research Committee. Revised proposals (if any) shall be reviewed by the AVPR. The AVPR shall then submit the modified proposal to the VPRI for further consideration and assessment. The VPRI, in consultation with the Provost, shall review the revised proposal with accompanying recommendations. Depending on the outcome of the VPRI's assessment of the revised proposal, he/she will take action as outlined above.
- 5. A CCI shall be administered by a director who shall be appointed by the administrative dean. The director may be nominated by the faculty members of the CCI for consideration. If a director nomination process is chosen for the CCI, the initial director shall be selected by the administrative dean until faculty membership is established. Operating procedures, including the selection, retention, service period, and annual evaluation of the director, shall be outlined in the CCI proposal and will be in compliance with all applicable policies. The name of the director shall be submitted to the AVPR who annually will inform the CSU.
- 6. The administrative dean is responsible for the oversight of the fiscal health of each CCI under his/her supervision.
 - a. Limited state support, commonly in the form of office or resource space, time for the director, or other startup functions, is a decision prerogative of the administrative dean.
 - b. CCIs may not handle money directly. Administration of finances, except for that support coming out of the state budget, for all CCIs will be handled by SJSU auxiliaries in accounts in the name of the CCI.
 - c. Each director shall be responsible for the CCI account(s). The CCI account(s) shall consist of funds derived from unit activities including conferences, publications, and donations.
 - d. Distribution of any indirect costs earned by the CCI shall follow the current Division of Rcof

- 9. CCIs with gross receipts of less than \$10,000 per year, and less than \$5,000 in expenditures per year, and having a balance of funds of less than \$10,000 will file a short annual report with the AVPR. They will not be reviewed by the GS&R Committee, except in the following cases:
 - (1) They exceed one of the above amounts in three consecutive years.
 - (2) At the request of the AVPR.
- 10. No CCIs shall deliver SJSU curriculum (regular or special session), offer regular academic curricula, confer degrees, or offer for-credit academic degree instruction, without involvement of supporting units with such authority (e.g. university curricular review processes). However, CCIs may advise on curricular matters, and faculty members holding CCI appointments may supervise students who seek academic credit for research or training supported by an academic unit.
