Resolved: That our concerns could be allayed by the incorporation of certain commonly accepted privacy protections into the Presidential Directive

referred to in the (new) policm2

In order to foster a cooperative relationship with the President and our campus Administration, the Academic Senate has produced a new policy recommendation that conforms to the instructions in the veto message. However, we continue to believe that stronger privacy protections—similar to those initially proposed--are warranted, and propose this resolution to record our support for those protections. We hope that these protections can be included in the expected Presidential Directive.

Attached to this resolution are the documents needed to understand the development of this issue:
